

WE ARE GROWING!

ArchSpec is now representing Tresa in the states of Alabama and Mississippi.

Stay tuned for upcoming line additions!

ABOUT US

March of 2023 will be the 7th anniversary of ArchSpec! We are making large strides in the Architecture and Design communities which parallels the vision and mission of our agency.

While we recognize that design, functionality, and compliance are a must, we are sure to stay up to date with codes and new products in the market. From design guidance to construction documentation and specification preparation; Let us be your trusted resource!

“Architecture should speak of its time and place, but yearn for timelessness”
-Frank Gehry

UPCOMING CONTINUING EDUCATION

March 16th: A Planning Guide for Accessible Restrooms

April 20th: Design Solutions for Restroom Privacy

STAFFING UPDATES

We are pleased to announce two new hires and the formation of a new position within ArchSpec:

Jill Young has been hired to cover our San Antonio market and brings industry knowledge and experience with her.

Cecilia Quintana was also hired and has begun as an inside resource for our South Central territory customers and distributors.

Nicole Asher has shifted from a sales role into a new Partner Relations Management position. She will lead our exteriors products divisions' invoicing, job tracking, and follow-up on projects.

Volume 1 / Issue 1

RAS

The value to provide this to architects and our distributors in Texas allows us to offer a greater level of expertise and continue to be a valued resource. We encourage you to reach out to us for accessibility support and consultation.

STAFFING UPDATES

- Jerry Wilcox is now a Licensed RAS. A [Registered Accessibility Specialist](#) (RAS) is a professional licensed by the [Texas Department of Licensing and Regulation](#) to determine if a part of the built environment ([building](#), [park](#), [sidewalk](#), [parking lot](#)) is compliant with the Texas Architectural Barriers Act and the Texas Accessibility Standards (TAS). A RAS reviews construction documents to determine accessible design and inspects finished buildings to verify accessible construction.
